ABOUT ME

Passionate Frontend Developer with experience building modern, responsive, and accessible web applications using Nuxt.js, Vue.js, React, Tailwind CSS, JavaScript, and TypeScript. Skilled at transforming Figma designs into intuitive user interfaces, integrating REST APIs, and optimizing applications for performance across desktop and mobile devices. Experienced in developing business solutions such as the BizSure Insurance Platform and other client-facing applications while collaborating in agile environments. Committed to writing clean, scalable code and continuously learning new technologies to deliver exceptional digital experiences

EDUCATION

Nairobi Institute of Ecommerce

Diploma in software Programming

- Result: Awarded with Distinction.
- Core Focus: Advanced JavaScript (Vue/React), System Design, and UI/UX Principles.
- Future Goal: Currently preparing to enroll in a Bachelor's degree program to further advance technical and theoretical expertise in Software Engineering.

WORK EXPERIENCE

nanatec Ltd

junior developer

- Architected the end-to-end user experience and frontend logic for multiple high-traffic platforms, ensuring a balance between aesthetic appeal and technical performance.
- Utilized Vue 3, Nuxt, and Tailwind CSS to translate complex business requirements into interactive, responsive digital products.

Value chain factory

i frontend developer
