

ABIGAEL NJERI

FRONTEND DEVELOPER

Dear Antony,

I am writing to express my interest in the Frontend Developer position at your company. I am a skilled frontend developer with a Diploma in Software Development, specializing in frontend development, and I am passionate about building responsive, user-friendly web applications.

During my internship at Nanatec Company, I gained hands-on experience developing responsive websites, implementing mobile-first design principles, and integrating APIs to create dynamic and interactive user experiences. I also contributed to UI/UX design, ensuring that applications are not only functional but also visually appealing and easy to use across different devices.

I have experience working with modern technologies such as React, TypeScript, and Tailwind CSS, as well as backend tools like Node.js and MongoDB. I enjoy turning ideas into fully functional digital products and continuously improving performance, usability, and design quality.

I am highly motivated, detail-oriented, and eager to grow as a developer while contributing to a team that values innovation and quality. I would welcome the opportunity to bring my skills and dedication to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team

Your sincerely,
Abigeal Njeri
